

## **Client Testimonials for AlliedCare Home Health of Illinois,LLC**

**AlliedCare Home Health of Illinois is incredible. Their staff took care of my 90 year mother, Gloria. Their attention to detail really made the difference in my mother's care. From our nurse Jennifer to Marifel our physical therapist, the professionalism and simply the loving care provided was above and beyond what I expected. My mother had a couple other home health agencies in the past, but AlliedCare provided the best complete care amongst all the other agencies. I would without hesitation recommend AlliedCare to anyone who needs home health for their family or friends.**

**Thank you, Lucy**

It is my pleasure to write this letter of recommendation for AlliedCare Home Health of Illinois, LLC. I recently had a knee replacement of my left leg on February 18, 2012. Before the surgery, I was in pain, unable to get around, bend my knee, or take care of myself around home. Walking on my own with the help of my roller walker and/or my tripod cane is now possible due to the skilled nursing, physical therapy and occupational therapy provided to me by AlliedCare. I found the staff members to be very professional, caring and respectful of me and my home. Today is April 23, 2012 and I have and am improving each day (according to my doctor - knee surgeon, Dr. Joseph L D'Silva). I really like my nurse Kristine, she is down to earth, friendly, warm, understanding and ready to help and call my doctor if needed. She takes time to listen to me and explains how I am feeling. She is very professional and warm. I would like to recommend AlliedCare Home Health of Illinois, LLC to all my doctors, their patients, my family, my friends and to my many seniors who live in my apartment building which has over 300 apartments for people 62 years old or older.

Respectfully, Brenda

To whom it may concern,

I am writing this letter to AlliedCare Home Healthcare agency. I recommend this agency to all my doctors. They are caring people as the skilled care from the nurses and therapist are wonderful. The nurses took care of my husband for almost one year. He had two serious operation. He needed his bag to be changed often. The home health aide came to give him a shower and physical therapist came often to exercise with him. I recommend this AlliedCare Home Healthcare agency to anybody who needs this health care. I sincerely care and love these people like my family members.

Love, Jean and Patricio
